

Parker School District	NEPN Code: KG
Policy Reference Manual	

Activity Scheduling

1. Any time any organization in the school is requested to put on a program for any outside organization - church, service club, civic groups, or others - arrangements must first be made with the school administration. No program should be planned or scheduled without first consulting the principal, whether this program is to be given at the school or in another setting.
2. When a program is scheduled, the date and the time must be cleared with the superintendent's master calendar and all affected parties must be consulted, to avoid any possible conflicts.
3. No practice periods for any activity or class may be scheduled on Sundays and church nights.
